

UNIVERSITY *of* WASHINGTON

***OPEN:***

## **Post Doctoral position**

In the laboratory of Professor Tomas Mustelin, M.D., Ph.D., Rheumatology, Department of Medicine, University of Washington, Seattle, Washington, USA. <https://rheumatology.uw.edu/research/mustelin-lab>

We are seeking a talented and independent post doctoral fellow to work on the frontier of discovery of the key molecular mechanisms that initiate and drive rheumatoid arthritis and lupus. We offer the potential for publications in top journals and the opportunity to learn about clinically relevant basic science that underpins modern drug discovery and development. The successful candidate should have an M.D. and/or Ph.D. degree, a stellar track record of scientific accomplishments, and strong letters of reference. Independent stipend or fellowship funding is a plus, but not required. Salary will be commensurate with experience and based on NIH and the University of Washington guidelines. Applicants should submit a letter of interest, CV, and the names of three references to Dr. Mustelin ([tomas2@uw.edu](mailto:tomas2@uw.edu)).

University of Washington is an affirmative action and equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, protected veteran or disabled status, or genetic information.

Start date: As soon as possible. Ideally, early 2019.
